Component: Footer

1 Overview

The website footer is the section of content at the very bottom of a web page. It typically contains a copyright notice, a few links like privacy policy, sitemap, logo, contact information, social media icons etc. In short, a footer contains information that improves a website's overall usability.

Footer component includes combinations of other child sections mentioned below:

- Footer Links
- Logo
- Copyright Utility links configure options like legal notice, cookies etc.

2 Business Use Case

Designing of Global Footer Component for ASSA Americas Site Pages

3 Design

This footer component contains the authoring for Primary Footer Links, Copyright Text, footer icons.

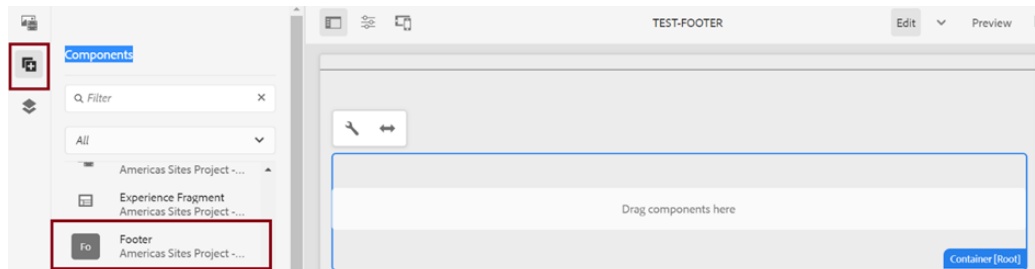

The Click of each link in footer would redirect to the respective authored link.

4 Authoring Steps

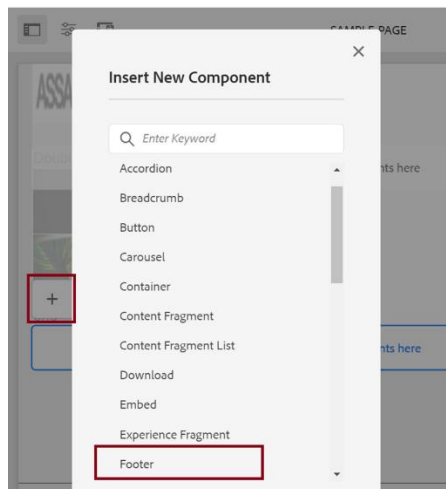

- **Step 1:** Create a new page or open an existing page by selecting the page and click on Edit option.

- **Step 2:** Once the Page is opened, insert the footer component into the page. It can be achieved via either of following ways
 - Go to the content panel from the top left side panel and then click on the component tab and Drag the Footer component from the left side panel and drop it inside the Layout Container.

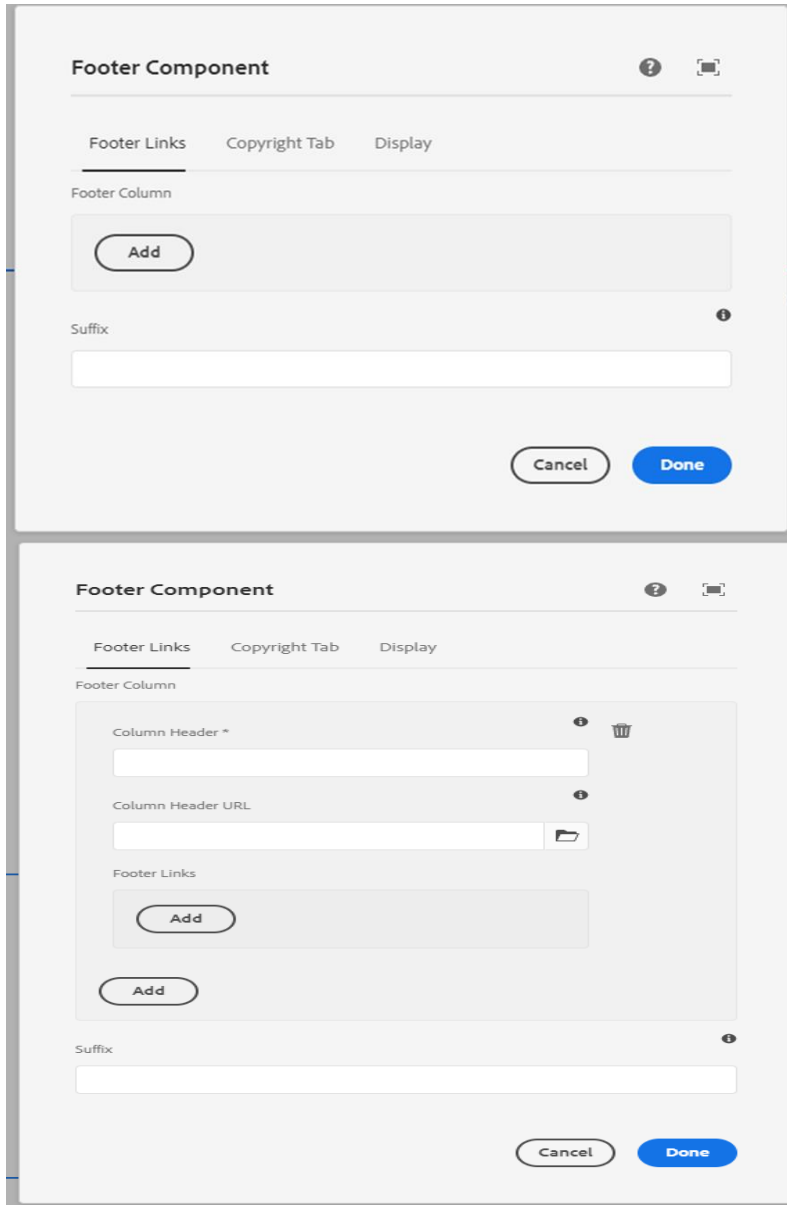

- Double click on the placeholder which is denoted by “Drag Components here” , or click on the plus icon available on the placeholder and choose Footer from the provided list of components.

- **Step 3:** Now Select the Footer component and click on the wrench icon to open the component dialog.

- **Step 4:** Enter the ASSA Footer Links details in Footer Links Tab. It will consist of Footer column Label, its URL and corresponding footer links as per below snapshot. Author can enter the Suffix
(Mainly for the Mobile view)

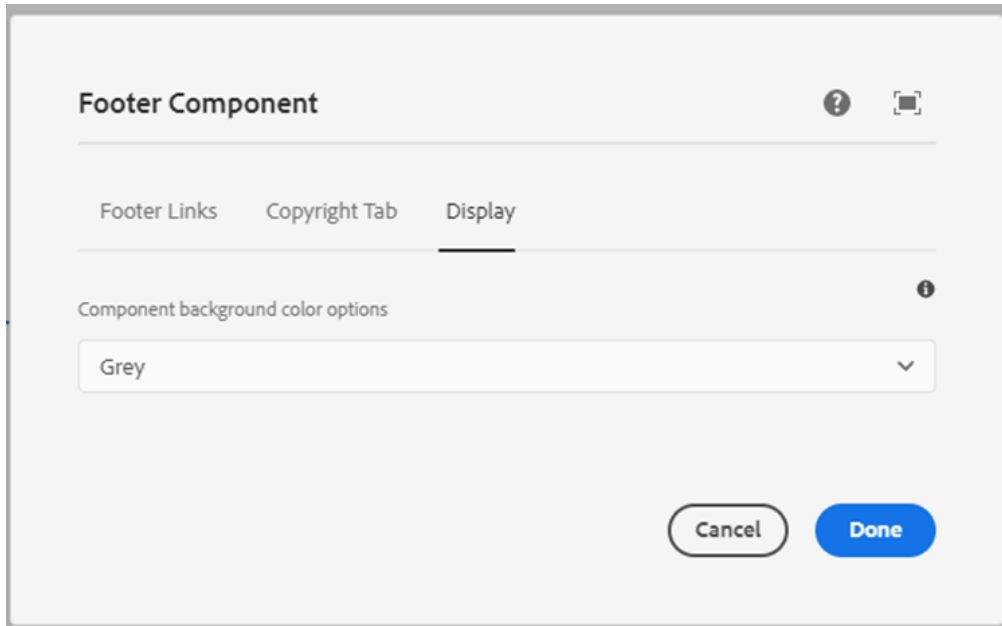

- **Step 5:** Click Add in footer link to configure the footer link values and add the required data

The screenshot shows the 'Footer Component' configuration window with the 'Footer Links' tab selected. The window has three tabs: 'Footer Links', 'Copyright Tab', and 'Display'. Under the 'Footer Links' tab, there is a 'Footer Column' section with the following fields: 'Column Header *' (text input), 'Column Header URL' (text input with a folder icon), and a 'Footer Links' list. The list contains one item with fields: 'Label/Text *' (text input), 'Path/Link' (text input with a folder icon), 'Target' (dropdown menu set to 'Self'), and two checkboxes: 'Check it to apply bold theme on the link/text' and 'Check it to apply Extra Padding on the link/text'. At the bottom right, there are 'Cancel' and 'Done' buttons.

- **Step 6:** Enter the Copyright Logo and copyright links information in Copyright tab

The screenshot shows the 'Footer Component' configuration window with the 'Copyright Tab' selected. The window has three tabs: 'Footer Links', 'Copyright Tab', and 'Display'. Under the 'Copyright Tab', there is a 'Copyright Logo Image Path' field (text input with a folder icon) and a 'Copyright Links' list. The list contains one item with fields: 'Copyright Item Label *' (text input), 'Copyright Item URL' (text input with a folder icon), and an 'Add' button. At the bottom right, there are 'Cancel' and 'Done' buttons.

- Step 7: Select the required component background color in the Display tab.

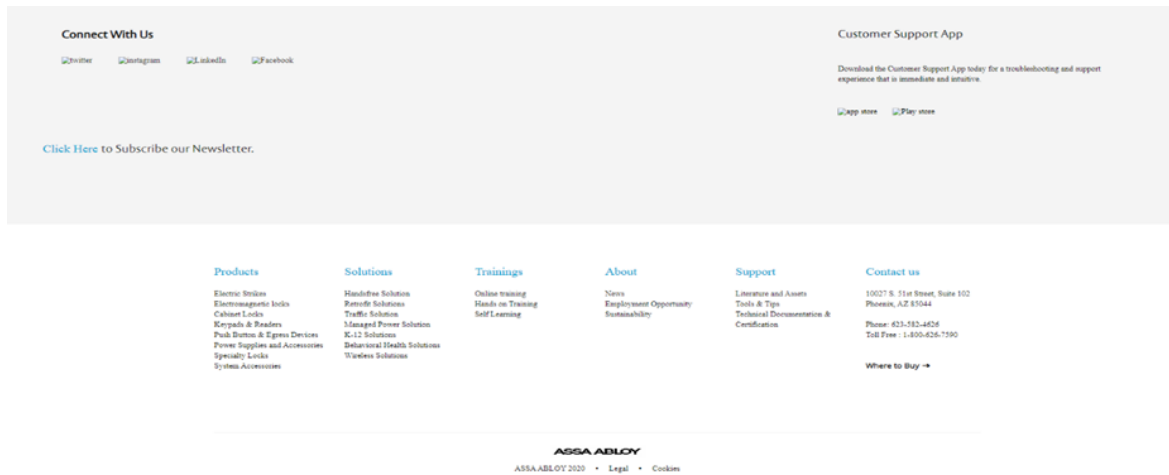

➤ Step 8: Fill in all the required details in the component dialog as following table:
