# Component: Hero Carousel Banner

## 1 Overview

This component allows the author to display the images (max of 4 images) in a carousel form with a marquee effect as well where images keep on changing at specified time interval.

## 2 Business Use Case

We had to display multiple images in a carousel form in couple of pages and this component provides this ability.

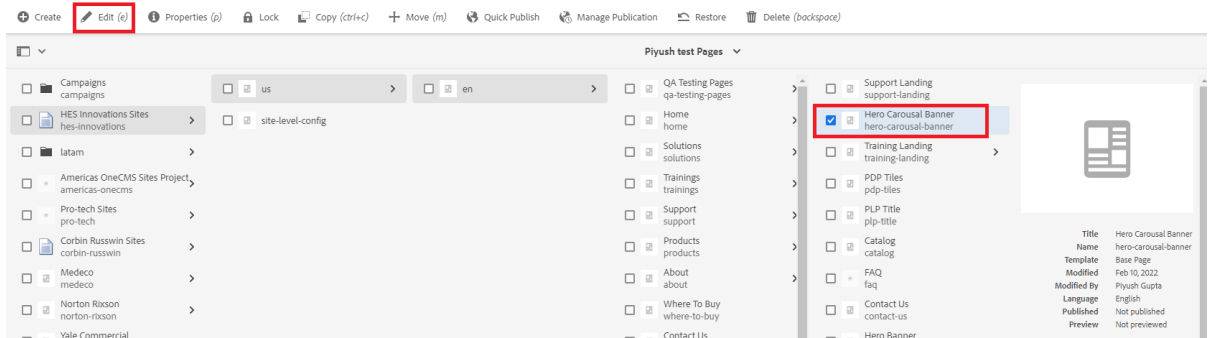

## 3 Design

This Hero Carousel Banner component has following properties.

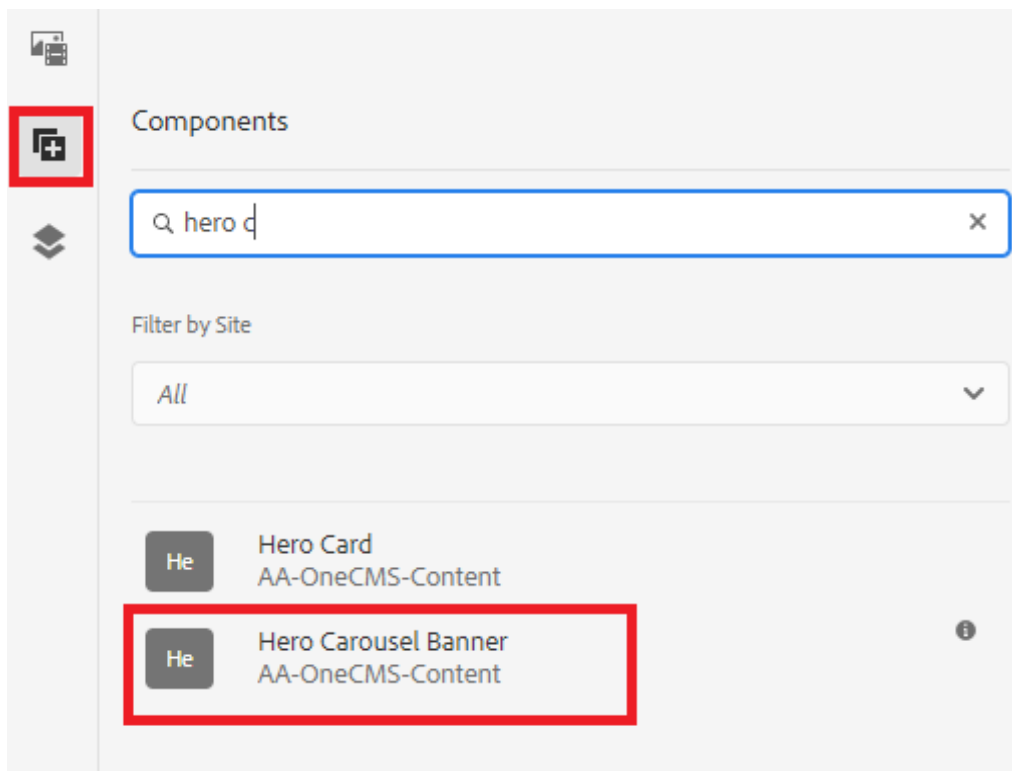

- Scroll Time – This is to capture the time interval at which images should keep on rotating
- Carousel Slides – This is to capture the images for below. A max of 4 slides can be authored.
  - o Image for desktop view
  - o Image for tablet view
  - o Image for mobile view
  - o Image alt text
  - o Title
  - o Card Title
  - o Description
  - o Card Description
  - o Text Color
  - o Text background Color
  - o CTA Text
  - o CTA Path
  - o CTA Theme

## 4 Authoring Steps

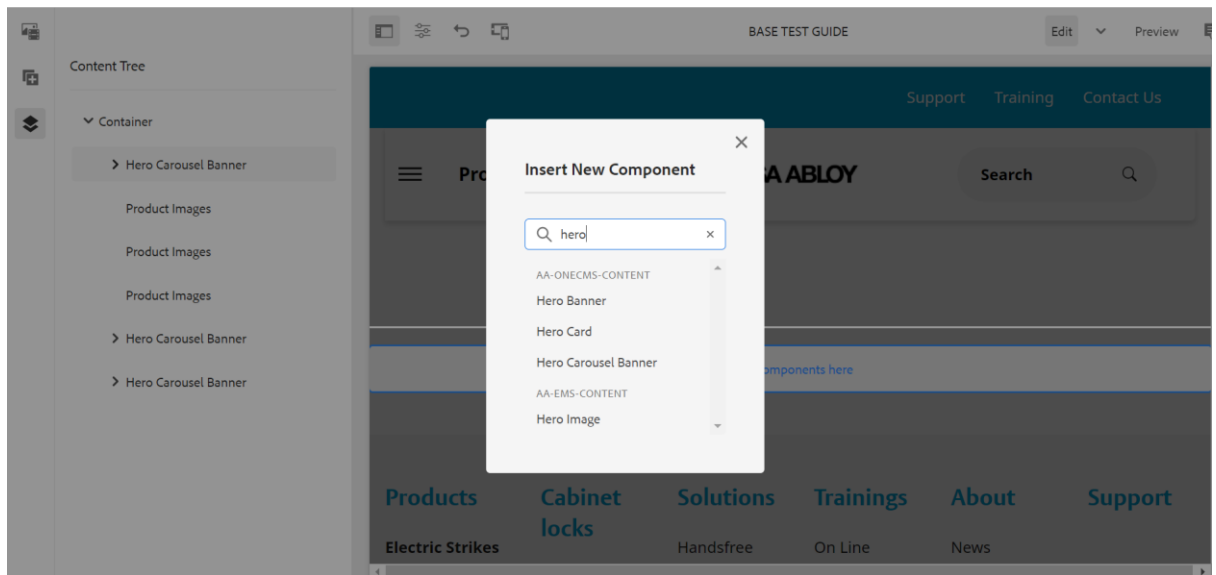

- **Step 1:** Create a new page or open an existing page by selecting the page and click on Edit option.

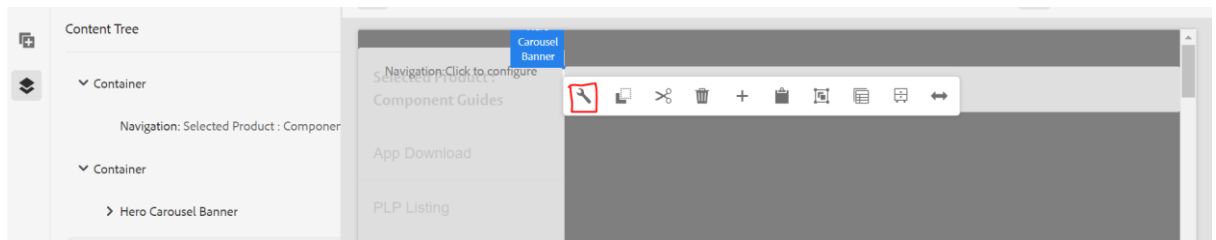

- **Step 2:** Once the Page is opened, go to the content panel from the top left side panel and then click on the component tab and Drag the Hero Carousel Banner component from the left side panel and drop it inside the Layout Container.

OR

- **Step 3:** Select the Hero Carousel Banner component and click on the wrench icon to open the component dialog.

- **Step 4:** Enter the details in the General tab.
