2 Business Use Case

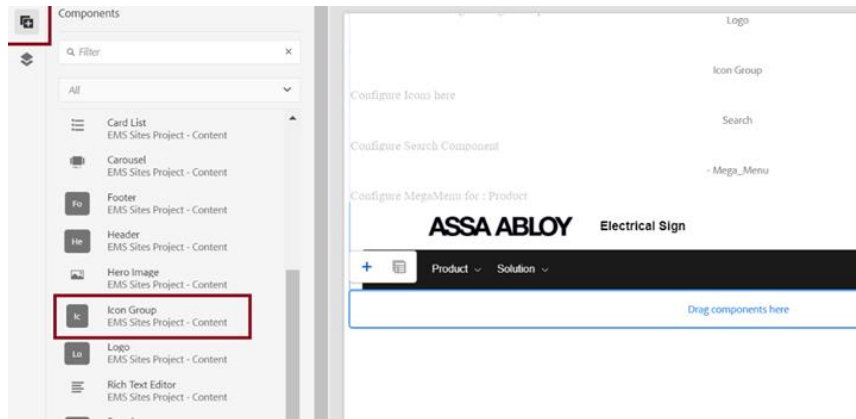

Designing of Icon group component for ASSA America Site Pages

3 Authoring Steps

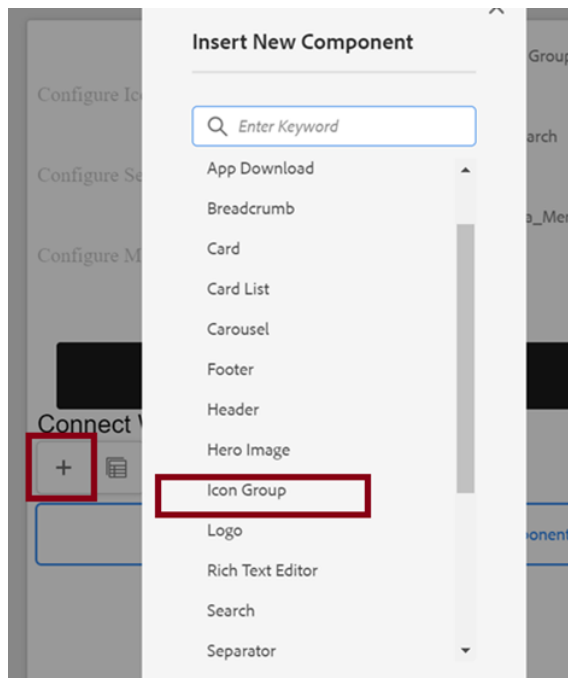

- **Step 1:** Create a new page or open an existing page by selecting the page and click on Edit option.

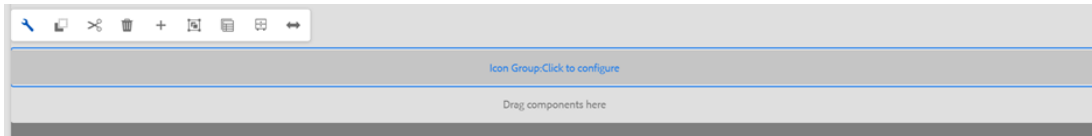

- **Step 2:** Once the Page is opened, insert the Icon group component into the page. It can be achieved via either of following ways
 - Go to the content panel from the top left side panel and then click on the component tab and Drag the icon group component from the left side panel and drop it inside the Layout Container.

- Double click on the placeholder which is denoted by “Drag Components here”, or click on the plus icon available on the placeholder and choose Icon group from the provided list of components

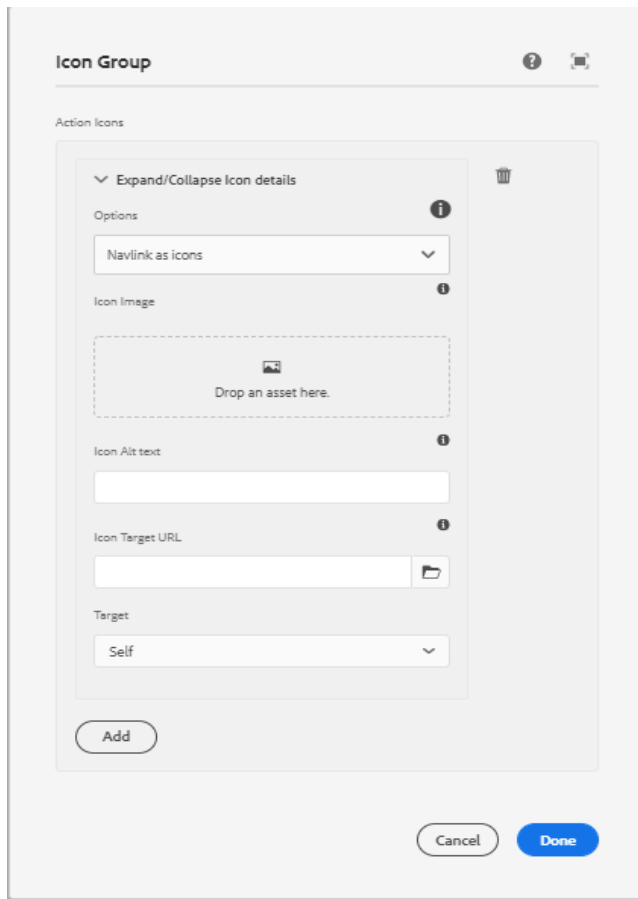

- **Step 3:** Now Select this component and click on the wrench icon to open the component dialog or double click on it.

- **Step 4:** Enter the corresponding icon and label details as per below snapshot

A screenshot of the "Icon Group" configuration dialog. The dialog has a title bar with a question mark and a close icon. Below the title bar, there is a section titled "Action Icons". Inside this section, there is a sub-section titled "Expand/Collapse Icon details" with a trash icon. This sub-section contains several fields: "Options" (a dropdown menu with "Navlink as text" selected), "Icon Alt text" (a text input field), "Label" (a text input field), "Icon Target URL" (a text input field with a folder icon), and "Target" (a dropdown menu with "Self" selected). At the bottom of the sub-section is an "Add" button. At the bottom of the dialog are "Cancel" and "Done" buttons.

➤ Step 5: Fill in all the required details in the dialog as following table.

S. No	Field Title	Field Type	Field Description	Mandatory (Yes/No)	Validation/Remarks (If any)
1.	Options	Dropdown	Enter the Icons details	Yes	Select Navlink as icons or Navlink as text
