Component: Logo

1 Overview

A logo is a graphic mark, emblem, symbol, or stylized name used to identify a company, organization, product, or brand. It may take the form of an abstract or figurative design, or it may present as a stylized version of the company's name if it has sufficient brand recognition. It is the first thing that visitors see when they visit a website.

2 Business Use Case

Designing of Logo Component for ASSA America Site Pages which can be used across brands with their specific.

3 Authoring Steps

Step 1: Create a new page or open an existing page by selecting the page and click on Edit option.

 \mathcal{T}

- 🕅 nagarro
- 1) <u>Step 2</u>: Once the Page is opened, insert the logo component into the page. It can be achieved via either of following ways:
 - Go to the content panel from the top left side panel and then click on the component tab and Drag the Header component from the left side panel and drop it inside the Layout Container.

Б	Component	s
