# **Component: Text Image**

#### **1** Overview

Text Image Component allows web authors to display Text Image.

#### 2 Business Use Case

It is a way to display Text Image which takes the end user to corresponding link.

#### 3 Design

The Text Image Component is normal component. The Text Image component contains the authoring for Title, Image, Image Alt Text, Padding, Image width, Target, Image Position, URL Path to redirect, Description (RTE).

#### 4 Authoring Steps

Step 1: Create a new page or open an existing page by selecting the page and click on Edit option.

- Step 6: Click "Done" once you have entered all these details. Fill in all the required details in the component dialog as following table.
- Step 7: The Text Image will now be visible on the Page and can be previewed.

#### **5** User Interface

## What is Lorem Ipsum?

Lorem Ipsum is simply dummy text of the printing and typesetting industry. Lorem Ipsum has been the industry's standard dummy text ever since the 1500s, when an unknown printer took a galley of type and scrambled it to make a type specimen book.
