Table of Contents

Component: Title

1   Overview

The Title Component is intended to be used as the title or heading of a section of content.
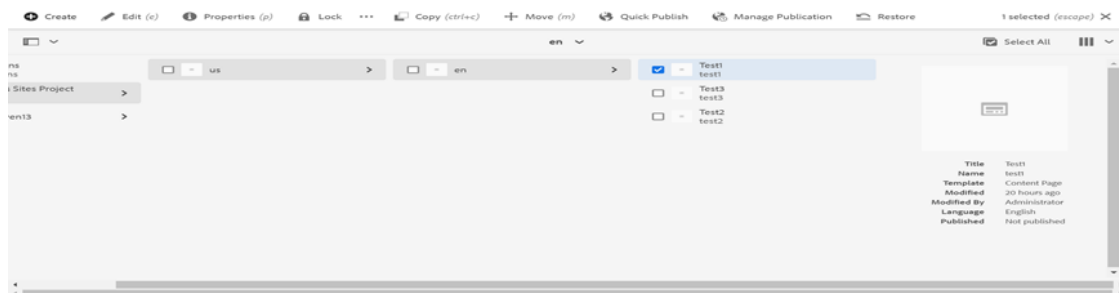

2   Business Use Case

It allows authors to author either title or/and heading. If Title is not authored, it takes the page title as title.
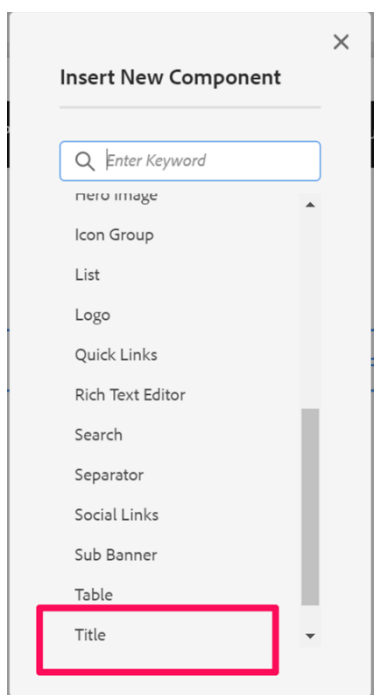

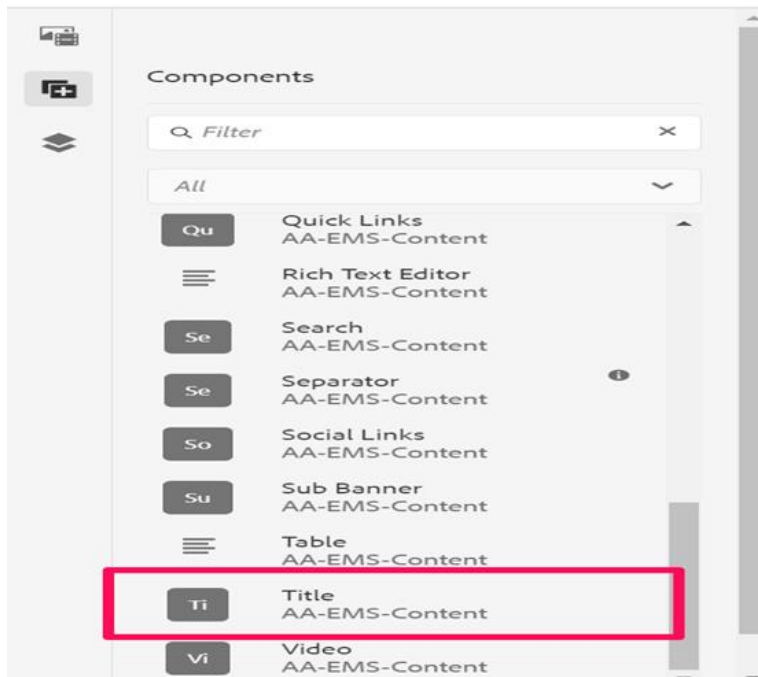

3   Design

This Title component contains the authoring for title, heading.

4   Authoring Steps

➢   Step 1: Create a new page or open an existing page by selecting the page and click on Edit option.

> ➢ Step 2: Once the Page is opened, go to the content panel from the top left side panel and then click on the component tab and Drag the Title component from the left side panel and drop it inside the Layout Container. Or choose it from the available component list

➢ Step 3: Select the Title component and click on the wrench icon to open the component dialog.

➢ Step 4: Enter the ASSA Title details in Title Dialog as per below snap.

➢ Step 5: Fill in all the required details in the component dialog as following table.

S. No	Field Title	Field Type	Field Description	Mandatory (Yes/No)
1.	Title	Text Field	Leave empty to use the page title.	No
2	Type/Size	Dropdown		No

➢ Step 6: Click "Done" once you have entered all these details.

➢ Step 7: The Title will now be visible on the Page and can be previewed.

5   User Interface
